## OVERVIEW

**Team Golf is a new Concept for an old Game.**

The simple objective of **Team Golf** is to bring the comradery and excitement of team sport to golf.

### Key Features

- Teams are comprised of 6 players (3 minimum requirement) playing 9 holes of golf. The best three scores are added together to form the Team Score. Teams compete against each other in a round robin season with finals at the end of the round robin. (Teams do not need to play physically with each other).
- Players can play anytime it suits (subject to bookings), no designated time brackets, the only restriction is players can not play by themselves. They must play with at least one other Team Golf player.
- It's open to anyone and everyone, beginners, members, social golfers, professionals.....anyone. Handicaps and divisions make the event fair and because you play when it suits you there is no need to feel pressured or embarrassed.

"We have the experience to run this event, the concept has flourished in other golf clubs"
